*Memorandum*

TO :

25X1A

DATE: 10 December 1964

Info :

FROM : DAD/S&amp;D

SUBJECT:

Paragraph 1 indicates that we will soon have delivery of PDC/M-121. Paragraph 2 infers that we cannot perform the acceptance tests on this equipment without having the compatible tape reproducer. While this might be nice to have, I am against indicating particularly in the letter that we have gone ahead and bought a piece of equipment without being able to perform an acceptance test. Please change the letter accordingly.
